Profile

Final-year Software Engineering student (ESPRIT), specialized in Backend Development and DevSecOps. Strong expertise in Java, Spring Boot, REST APIs, ML, Docker, CI/CD and application security (OWASP, SAST/DAST). Proven experience in designing and deploying distributed, high-performance, and secure solutions within Agile/Scrum environments.

Professional Experience

- 2025 Application Security Intern, SMT – Société Monétique de Tunisie, Tunis**
 - Implemented a DevSecOps platform (SAST/DAST), achieving 95% vulnerability detection.
 - Deployed a RAG Deep Learning agent: +25% prioritization efficiency, +40% faster analysis (1000+ alerts).
- 2024 Web Development Intern, La Poste Tunisienne, Tunis**
 - Designed an invoice management system (Java / Spring Boot), automating 80% of manual tasks.
 - Optimized SQL/MySQL queries: reduced critical errors by 20%, enhancing performance by 15% (5000+ transactions/month).
- 2022 Networks & Systems Intern, Banque Tuniso-Libyenne, Tunis**
 - Supervised 100+ servers/workstations ensuring 99% availability.
 - Resolved 10+ critical incidents, reducing downtime by 20%.

Education

- 2021–2026 Software Engineering Degree, ESPRIT, Ariana**
- 2021 Baccalaureate in Experimental Sciences, Lycée Esprit Al-Fikr, Ariana**

Academic Projects

- 2025 Sales Management CRM | Power BI**
 - Designed and implemented an ETL process (Power BI) and developed interactive dashboards.
 - Improved reporting efficiency by 50% for over 5,000 monthly transactions.
- 2024 Construction Project Management Platform | Angular + Spring Boot**
 - Developed a 5-module platform used by 30+ engineers across 10 projects.
 - Coordinated Agile sprints, reducing project delays by 15% and boosting productivity by 20%.
- 2022 Banking Web & Mobile Platform | JavaFX + Flutter Flow**
 - Built a solution processing over 1,000 transactions/day.
 - Reduced approval time by 20% and Boosted processing efficiency by 15%.

Skills

Langages & Frameworks: Java, Python, PHP, JavaScript, C#, .NET, Spring Boot, Angular, Node.js, React, Flutter Flow

Backend & Architecture: REST/SOAP APIs, Microservices, System Design, Distributed Systems, UML, Design Patterns, Scalability, High Availability, Agile/Scrum

Data & Big Data: MySQL, MongoDB, SQL Server, Oracle, Power BI, Hadoop, Spark (bases), Machine Learning, Deep Learning

Security: DevSecOps, Application Security, OWASP Top 10, SAST/DAST, Firewalls

DevOps & Systems: Docker, Linux, Windows Server, VMware, Git, CI/CD (Jenkins, GitHub Actions), PowerShell, Networking (Cisco CCNA)

Languages

• Arabic (Native) • French (Intermediate) • English (Intermediate) • German (Beginner)
